

# 40,000 WISE Alumni and Growing

**At a Critical Moment in Their Adolescent Lives —  
The Transition from High School to College and Career —  
WISE Services Provides Real World Learning Experiences**

When high school students are given the opportunity to follow their passions, they discover their talents. It is our great joy to help adolescents identify their talents and practice them in the real world with adult-rich supports.

WISE Services is a collaborative effort of schools, educators, students, parents, business leaders, community members and graduates.
